

# Extending the Functionality of your Information System By Adding Cloud-Based Multi-Channel Messaging

BLI Messaging provides a portal-based integration plan for information system providers. Below is an example of how to integrate your existing application and the BLI Messaging portals.

## Portal-Based Integration Plan

The screenshot shows an 'Academic Status' page with a sidebar menu and a main content area. The main content area includes a 'Generate List' button and a table of students. The table has columns for Student, Teacher, Course, Term, School, and various status indicators.
